

Prescription Information

This treatment plan contains important information regarding the medication that was prescribed to you by your doctor. The following includes: ingredient information, side effects, dosing instructions, proper storage, and other information important for you to know before starting treatment.

What are some things I need to know about this medication?

This medication is a custom compounded formula recommended for you by your prescriber. This medication is customized to your condition and made in a compounding pharmacy. If you have received a pump bottle, you may need to prime the bottle before using it. Press the pump several times to remove the excess air from the bottle. If that doesn't work still, insert a paperclip into the hole on the bottom of the bottle and press up firmly to move the piston up.

Prescription formula ingredients may include:

Oxymetazoline, Azelaic Acid, Ivermectin, Metronidazole in a Pharmaceutically Elegant Dermatology Cream

Ingredient Descriptions:

Azelaic acid is a mild naturally occurring acid which may reduce redness, swelling, and clear excess bacteria.

Oxymetazoline is a vasoconstrictor which narrows vessels underneath the application site to help reduce redness and flushing.

Ivermectin is a medication with anti-inflammatory effects which aids in reducing skin mites and facial redness.

Metronidazole is a topical antibiotic that can help reduce inflammation of irritated skin and reduce the number of acne.

What is the best way to use this medication?

Wash your face with a mild soap and water. Apply cream in a thin layer and gently massage into the entire face once or twice daily (forehead, nose, each cheek, and chin) avoid the lips and eyes. You may apply make-up or other beauty products once the cream is fully dry. Wash hands before and after application.

What should I tell my doctor before starting this medication?

Tell your doctor of any medication or ingredient allergies or sensitivities that you may have. Tell your doctor if you are allergic to any of the drugs in this formulation, as well as related drugs (vitamin C, ascorbic acid, acetyl hexapeptide, panthenol, vitamin B5, sodium hyaluronate, hyaluronic acid). Tell your doctor if you are pregnant, trying to get pregnant or breastfeeding.

Pregnancy & Breastfeeding

This compound has not been evaluated for use during pregnancy or breast feeding. If you are pregnant, breast feeding, or trying to become pregnant use this medication only at the discretion of your doctor.

What are the possible side effects of this medication?

Burning, stinging, tingling of the skin, dryness, itching, peeling, redness of the skin, or increased sensitivity to the sun may occur. If these symptoms are severe contact us and your doctor. Stop using this medicine and call your doctor at once if you have: worsening of your rosacea symptoms, numbness, tingling, cold feeling in your hands or feet, pale or purple appearance in your fingers or toes, or blurred vision, tunnel vision, eye pain, or seeing halos around lights.

How long until I see a desired effect from this medication?

It may take up to several weeks to see maximum results.

FAQ's

Please visit the Family Pharmacy website FAQ section or search the <https://www.familypharmacy.org/our-blog-2> for more informative articles and literature.

Allergies

This medication may cause an allergic reaction if you are allergic to the contained ingredients, or ones that are very similar. If you have an allergy to the contained chemicals listed or related chemicals, please reach out to us and contact your doctor. Get emergency medical help if you have signs of an allergic reaction such as: hives, difficulty breathing, swelling of your face, lips, tongue, or throat.

How should I store this medication?

If the product has arrived warm, wait 2 hours before using. Store this medication in a cool, dry environment, protected from light, at room temperature (68F-77F). Always make sure the container is tightly closed when not using the medication. Keep all medications in a safe place out of reach of pets and children.

Pharmacy Disclaimer

The drug and medical information provided by the Pharmacy is not intended to be comprehensive and does not replace the professional judgment of a licensed Healthcare Provider. The Pharmacy is separate and independent from any Healthcare Provider, including telehealth providers, who may prescribe medications dispensed by the Pharmacy.

While reasonable efforts are made to ensure information is accurate and current, the Pharmacy makes no guarantees regarding its completeness or timeliness and assumes no responsibility for its use. The absence of a warning for any medication or supplement does not imply safety, effectiveness, or appropriateness for any patient.

Questions regarding diagnosis or treatment should be directed to your prescribing Healthcare Provider. Questions regarding dispensing may be directed to the Pharmacy or your pharmacist.

Compounded medications are prepared pursuant to a valid prescription and have not been evaluated or approved by the FDA for safety or efficacy. All active ingredients are FDA-approved and compounded in accordance with applicable USP standards.
